Policy Overview

Providers may receive reimbursement for visit codes (evaluation and management services) in addition to a laboratory test, but only when the provider performs a distinct and separately identifiable service in addition to the test. If a separate and significant evaluation and management service is provided to the patient in addition to the lab work, modifier -25 should be appended.

Application

This policy applies to Professional Claims.

Reimbursement

Claims Reimbursement Edit

The Health Plan's clinical code editing software will flag all provider claims billed with the modifier -25 for prepayment clinical validation. Clinical validation occurs *prior to claims payment*. Once a claim has been clinically validated, it is either released for payment or denied for incorrect use of the modifier.

Rationale for Edit

Providers should not bill an evaluation and management code unless a significant and separate E/M service is provided. Billing an E/M code when the only service is obtaining specimens for laboratory procedures is inappropriate.

Modifier -25 should only be used to indicate that a “significant, separately identifiable evaluation and management service (was provided) by the same physician on the same day of the procedure or other service.”

Pre-payment Clinical Claims review

A significant, separately identifiable E/M service is defined or substantiated by documentation that satisfies the relevant criteria for the respective E/M service to be reported. If medical records do not indicate that significant, separately identifiable services were performed, the health plan covers the primary procedure or other service, and denies the secondary E/M billed with Modifier 25.

To avoid incorrect denials providers should assign all applicable diagnosis codes that indicate what the need for additional E/M services.

Documentation Requirements

The following guidelines will be used to determine whether or not modifier 25 was used appropriately. If any one of the following conditions is met then reimbursement for the E/M service is recommended

- If the E/M service is the first time the provider has seen the patient or evaluated a major condition
- A diagnosis on the claim indicates that a separate medical condition was treated in addition to the procedure that was performed
- The patient’s condition is worsening as evidenced by diagnostic procedures being performed on or around the date of services
- If a provider bills supplies or equipment, on our around the same date, that are unrelated to the procedure performed but would have required an E/M services to determine the patient’s need

Important Reminder

For the purposes of this payment policy, “Health Plan” means a health plan that has adopted this payment policy and that is operated or administered, in whole or in part, by Centene Management Company, LLC, or any other of such health plan’s affiliates, as applicable.

The purpose of this payment policy is to provide a guide to payment, which is a component of the guidelines used to assist in making coverage and payment determinations and administering benefits. It does not constitute a contract or guarantee regarding payment or results. Coverage and payment determinations and the administration of benefits are subject to all terms, conditions, exclusions and limitations of the coverage documents (e.g., evidence of coverage, certificate of coverage, policy, contract of insurance, etc.), as well as to state and federal requirements and applicable plan-level administrative policies and procedures.

This payment policy is effective as of the date determined by Health Plan. The date of posting may not be the effective date of this payment policy. This payment policy may be subject to applicable legal and regulatory requirements relating to provider notification. If there is a discrepancy between the effective date of this payment policy and any applicable legal or regulatory requirement, the requirements of law and regulation shall govern. Health Plan retains the right to change, amend or withdraw this payment policy, and additional payment policies may be developed and adopted as needed, at any time.

This payment policy does not constitute medical advice, medical treatment or medical care. It is not intended to dictate to providers how to practice medicine. Providers are expected to exercise professional medical judgment in providing the most appropriate care, and are solely responsible for the medical advice and treatment of members. This payment policy is not intended to
