Policy Overview

The Centers for Medicare and Medicaid Services (CMS) state that the global surgical package includes supplies needed as part of the surgical procedure. Supplies are considered a component of the global surgical package and except in certain circumstances, are not separately reportable.

According to the CMS program manual publication 100-04, publication 20.4.4, separate payment for supplies related to a surgery is only allowed under two conditions 1) HCPCS code A4300 when billed in conjunction with the appropriate procedure code, and 2) the supply is a pharmaceutical or radiopharmaceutical diagnostic imaging agent, stressing agent, or therapeutic radionuclide.

The purpose of this policy is to define payment criteria for supplies billed on the same date as a surgical procedure to be used by the health plan in making payment decisions.

Application

This policy applies to:

- Professional claims
- Same member
- Same provider
- Same date of service as a surgical procedure.

Reimbursement

The health plan will deny claim lines billed with supplies on the same day as a surgical procedure when the surgical procedure has been assigned a global period by CMS.

This rule will review within the same claim and will also review claims in history.
