Policy Description

All acute inpatient facility admissions require authorization. Louisiana Healthcare Connections uses written clinical support criteria to evaluate medical necessity, level of care, and/or clinical appropriateness. When the inpatient facility admission is denied as not medically necessary, the associated professional services are also not payable. Louisiana Healthcare Connections will not reimburse services which are not considered medically necessary.

Reimbursement

The health plan will utilize programmed claims logic to review inpatient professional claims and compare them to inpatient facility authorizations to draw a conclusion as to whether or not the professional services are payable.

In the event there is no matching inpatient authorization for the same member with dates of service included within the authorization date span, the professional claim will be denied with the following explanation code:
