

Clinical Policy: Azacitidine (Vidaza)

Reference Number: LA.PHAR.387

Effective Date: 03.16.23 Last Review Date: 01.21.25 Line of Business: Medicaid

Coding Implications Revision Log

See <u>Important Reminder</u> at the end of this policy for important regulatory and legal information.

Please note: This policy is for medical benefit

Description

Azacitidine (Vidaza®) is a nucleoside metabolic inhibitor.

FDA Approved Indication(s)

Vidaza is indicated for the treatment of:

- Adult patients with the following French-American-British (FAB) myelodysplastic syndrome (MDS) subtypes: refractory anemia (RA) or refractory anemia with ringed sideroblasts (RARS) (if accompanied by neutropenia or thrombocytopenia or requiring transfusions), refractory anemia with excess blasts (RAEB), refractory anemia with excess blasts in transformation (RAEB-T), and chronic myelomonocytic leukemia (CMMoL).
- Pediatric patients aged 1 month and older with newly diagnosed juvenile myelomonocytic leukemia (JMML).

Policy/Criteria

Provider must submit documentation (such as office chart notes, lab results or other clinical information) supporting that member has met all approval criteria.

It is the policy of Louisiana Healthcare Connections that azacitidine, and Vidaza are **medically necessary** when the following criteria are met:

I. Initial Approval Criteria

- **A. Myelodysplastic Syndromes** (must meet all):
 - 1. Diagnosis of MDS, including JMML;
 - 2. Request is for generic azacitidine or Vidaza;
 - 3. Prescribed by or in consultation with an oncologist or hematologist;
 - 4. One of the following (a or b):
 - a. Age \geq 18 years;
 - b. Age ≥ 1 month, and request is for JMML;
 - 5. For brand Vidaza requests, member must use generic azacitidine, unless contraindicated or clinically significant adverse effects are experienced;

CLINICAL POLICY

Azacitidine

- 6. Request meets one of the following (a, b, or c):*
 - a. For MDS, dose does not exceed one of the following (i or ii):
 - i. Initial: 75 mg/m² per day for 7 days;
 - ii. Maintenance: 100 mg/m² per day for 7 days per 4-week cycle;
 - b. For JMML, dose does not exceed one of the following administered daily for 7 days per 28-day cycle, for up to 6 cycles (i or ii):
 - i. Age 1 month to less than 1 year or weighing less than 10 kg: 2.5 mg/kg;
 - ii. Age 1 year and older and weighing 10 kg or greater: 75 mg/m²;
 - c. Dose is supported by practice guidelines or peer-reviewed literature for the relevant off-label use (*prescriber must submit supporting evidence*).

*Prescribed regimen must be FDA-approved or recommended by NCCN

Approval duration: 6 months

B. Acute Myeloid Leukemia (Vidaza off-label) (must meet all):

- 1. Diagnosis of AML;
- 2. Prescribed by or in consultation with an oncologist or hematologist;
- 3. Age \geq 18 years;
- 4. For Vidaza requests, prescribed in one of the following ways (a-f):
 - a. As a single agent;
 - b. In combination with Venclexta[®];
 - c. For FLT3-ITD (internal tandem duplication) mutation: In combination with Nexavar®:
 - d. For IDH1 mutation: In combination with Tibsovo®;
 - e. For IDH2 mutation: In combination with Idhifa®;
 - f. For FLT3-ITD or TKD (tyrosine kinase domain) mutation in disease without IDH1 mutation: In combination with Xospata[®];
- 5. For brand product requests, member must use generic azacitidine, if available, unless contraindicated or clinically significant adverse effects are experienced;
- 6. Request meets one of the following (a, b, or c):*
 - a. Onureg: Dose does not exceed 300 mg (1 tablet) per day for 14 days per 4-week cycle;
 - b. Vidaza: Dose does not exceed 100 mg/m² per day for 7 days per 4-week cycle;
 - c. Dose is supported by practice guidelines or peer-reviewed literature for the relevant off-label use (*prescriber must submit supporting evidence*).

*Prescribed regimen must be FDA-approved or recommended by NCCN

Approval duration: 6 months

C. Myelofibrosis (off-label) (must meet all):

- 1. Diagnosis of advanced phase (i.e., accelerated- or blast-phase) myeloproliferative neoplasms;
- 2. Request is for generic azacitidine or Vidaza;
- 3. Prescribed by or in consultation with an oncologist or hematologist;
- 4. Age \geq 18 years;
- 5. Prescribed as bridging therapy prior to transplant, unless member is not a candidate for transplant;
- 6. One of the following (a or b):
 - a. Prescribed as a single agent or in combination with Jakafi[®], Inrebic[®], Ojjaara[®], or Vonjo[®] for palliation of splenomegaly or other disease-related symptoms;

- b. Prescribed in combination with Venclexta;
- 7. For brand Vidaza requests, member must use generic azacitidine, unless contraindicated or clinically significant adverse effects are experienced;
- 8. Request meets one of the following (a or b):*
 - a. Dose does not exceed 100 mg/m² per day for 7 days per 4-week cycle;
 - b. Dose is supported by practice guidelines or peer-reviewed literature for the relevant off-label use (*prescriber must submit supporting evidence*).

*Prescribed regimen must be FDA-approved or recommended by NCCN

Approval duration: 6 months

D. Peripheral T-Cell Lymphoma (off-label) (must meet all):

- 1. Diagnosis of one of the following peripheral T-cell lymphomas (a, b, or c):
 - a. Angioimmunoblastic T-cell lymphoma;
 - b. Nodal peripheral T-cell lymphoma with TFH phenotype;
 - c. Follicular T-cell lymphoma;
- 2. Prescribed by or in consultation with an oncologist or hematologist;
- 3. Age \geq 18 years;
- 4. Disease is relapsed or refractory;
- 5. Prescribed as a single agent for one of the following (a or b):
 - a. Initial palliative therapy;
 - b. Second-line or subsequent therapy;
- 6. For brand product requests, member must use generic azacitidine, if available, unless contraindicated or clinically significant adverse effects are experienced;
- 7. Request meets one of the following (a, b, or c):*
 - a. Vidaza: Dose does not exceed 100 mg/m² per day for 7 days per 4-week cycle;
 - b. Dose is supported by practice guidelines or peer-reviewed literature for the relevant off-label use (*prescriber must submit supporting evidence*).

*Prescribed regimen must be FDA-approved or recommended by NCCN

Approval duration: 6 months

E. Other diagnoses/indications (must meet 1 or 2):

- 1. If this drug has recently (within the last 6 months) undergone a label change (e.g., newly approved indication, age expansion, new dosing regimen) that is not yet reflected in this policy, refer to LA.PMN.255
- 2. If the requested use (e.g., diagnosis, age, dosing regimen) is NOT specifically listed under section III (Diagnoses/Indications for which coverage is NOT authorized) AND criterion 1 above does not apply, refer to the off-label use policy LA.PMN.53

II. Continued Therapy

A. All Indications in Section I (must meet all):

- 1. Currently receiving medication via Louisiana Healthcare Connections benefit, or documentation supports that member is currently receiving Vidaza for a covered indication and has received this medication for at least 30 days;
- 2. Member is responding positively to therapy;
- 3. For brand product requests, member must use generic azacitidine, if available, unless contraindicated or clinically significant adverse effects are experienced;
- 4. If request is for a dose increase, request meets one of the following (a, b, c, or d):*

CLINICAL POLICY

Azacitidine

- a. Vidaza for MDS: New dose does not exceed 100 mg/m² per day for 7 days per 4-week cycle;
- b. Vidaza for JMML: New dose does not exceed one of the following administered daily for 7 days per 28-day cycle, for up to 6 cycles (i or ii):
 - i. Age 1 month to less than 1 year or weighing less than 10 kg: 2.5 mg/kg;
 - ii. Age 1 year and older and weighing 10 kg or greater: 75 mg/m²;
- c. New dose is supported by practice guidelines or peer-reviewed literature for the relevant off-label use (*prescriber must submit supporting evidence*).

*Prescribed regimen must be FDA-approved or recommended by NCCN

Approval duration: 12 months

B. Other diagnoses/indications (must meet 1 or 2):

- 1. If this drug has recently (within the last 6 months) undergone a label change (e.g., newly approved indication, age expansion, new dosing regimen) that is not yet reflected in this policy, refer to LA.PMN.255
- 2. If the requested use (e.g., diagnosis, age, dosing regimen) is NOT specifically listed under section III (Diagnoses/Indications for which coverage is NOT authorized) AND criterion 1 above does not apply, refer to the off-label use policy LA.PMN.53

III. Diagnoses/Indications for which coverage is NOT authorized:

A. Non-FDA approved indications, which are not addressed in this policy, unless there is sufficient documentation of efficacy and safety according to the off label use policy – LA.PMN.53 for Medicaid or evidence of coverage documents.

IV. Appendices/General Information

Appendix A: Abbreviation/Acronym Key AML: acute myelogenous leukemia ANC: absolute neutrophil count

CMMoL/CMML: chronic myelomonocytic leukemia

CR: complete response

CRi: complete response with incomplete

hematologic recovery

FAB: French-American-British

FDA: Food and Drug Administration

ITD: internal tandem duplication

JMML: juvenile myelomonocytic

leukemia

MDS: myelodysplastic syndrome

MF: myelofibrosis

NCCN: National Comprehensive Cancer

Network

RA: refractory anemia

RAEB: refractory anemia with excess

blasts

RAEB-T: refractory anemia with excess

blasts in transformation

RARS: refractory anemia with ringed

sideroblasts

TKD: tyrosine kinase domain

Appendix B: Therapeutic Alternatives Not applicable

Appendix C: Contraindications/Boxed Warnings:

• Contraindication(s): advanced malignant hepatic tumors (Vidaza only), hypersensitivity to azacitidine (or mannitol for Vidaza only)

• Boxed warning(s): none reported

Appendix D: General Information

The National Comprehensive Cancer Network (NCCN) AML treatment guidelines define morphologic CR in patients that are independent of transfusions as follows:

- Absolute neutrophil count (ANC) > 1,000/mcL (blasts < 5%)
- Platelets $\geq 100,000/\text{mcL}$ (blasts < 5%)

NCCN presents CRi (a variant of CR) for AML as follows based on clinical trial information:

- < 5% marrow blasts
- Either ANC < 1,000/mcL or platelets < 100,000/mcL
- Transfusion independence but with persistence of neutropenia (< 1,000/mcL) or thrombocytopenia (< 100,000/mcL)

V. Dosage and Administration

| Drug Name | Indication | Dosing Regimen | Maximum Dose |
|-------------|------------|---|---------------------------------|
| Azacitidine | AML | 300 mg PO QD on days 1 through 14 | 300 mg/day for |
| (Onureg) | | of each 28-day cycle | 14 days/cycle |
| Azacitidine | MDS | 75 mg/m ² SC or IV infusion QD for 7 | $100 \text{ mg/m}^2/\text{day}$ |
| (Vidaza) | | days. Repeat cycle every 4 weeks. | for 7 days/cycle |
| | | May increase to 100 mg/m ² (after 2 | |
| | | treatment cycles). Patients should be | |
| | | treated for a minimum of 4 to 6 cycles. | |
| | | Doses may be adjusted or delayed | |
| | | based on hematology lab values, renal | |
| | | function, or serum electrolytes. | |
| | | Continue treatment as long as the | |
| | | patient continues to benefit | |
| | JMML | Age 1 month to less than 1 year or | See dosing |
| | | weighing less than 10 kg: 2.5 mg/kg | regimen |
| | | | |
| | | Age 1 year and older and weighing 10 | |
| | | kg or greater: 75 mg/m ² | |
| | | | |
| | | Administer IV daily for 7 days in a 28- | |
| | | day cycle, for a minimum of 3 cycles | |
| | | and a maximum of 6 cycles | |

VI. Product Availability

| Drug Name | Availability |
|----------------------|--|
| Azacitidine (Vidaza) | Lyophilized powder in single dose vial: 100 mg |

Coding Implications

Codes referenced in this clinical policy are for informational purposes only. Inclusion or exclusion of any codes does not guarantee coverage. Providers should reference the most up-to-date sources of professional coding guidance prior to the submission of claims for reimbursement of covered services.

| HCPCS | Description |
|-------|------------------------------|
| Codes | |
| J9025 | Injection, azacitidine, 1 mg |

| Reviews, Revisions, and Approvals | Date | LDH Approval |
|--|----------|-----------------|
| | | Date |
| Converted corporate to local policy | 02.23 | 03.16.23 |
| Updated criteria for other diagnoses/indications | 06.25.23 | 10.24.23 |
| Added Onureg to the policy and Onureg specific criteria | | |
| Annual review: removed Onureg from policy, as drug is on PDL | 05.06.24 | 08.20.24 |
| with non-preferred LDH Criteria. Added blurb "This policy is for | | |
| medical benefit" references reviewed and updated | | |
| The second secon | | |
| Annual review: Removed any remaining policy mentions of | 01.21.25 | |
| Onureg, as this drug is part of the LDH PDL; revised policy/criteria | | |
| section to also include generic azacitidine; for all indications where | | |
| applicable, updated generic redirection to include Vidaza; for AML | | |
| added requirements regarding usage of Vidaza (single agent and | | |
| combination) per NCCN; updated off-label criteria for | | |
| "myelofibrosis" to instead refer to "myeloproliferative neoplasms" | | |
| and added specific requirements around recommended uses | | |
| (bridging therapy prior to transplant and use as a single agent or in | | |
| various combinations) per NCCN; added off-label criteria for | | |
| peripheral T-cell lymphomas per NCCN; references reviewed and | | |
| updated. Removal of Appendix E, as LDH previously advised it is | | |
| | | |
| not applicable to Medicaid. | | |

Important Reminder

This clinical policy has been developed by appropriately experienced and licensed health care professionals based on a review and consideration of currently available generally accepted standards of medical practice; peer-reviewed medical literature; government agency/program approval status; evidence-based guidelines and positions of leading national health professional organizations; views of physicians practicing in relevant clinical areas affected by this clinical policy; and other available clinical information. LHCC makes no representations and accepts no liability with respect to the content of any external information used or relied upon in developing this clinical policy. This clinical policy is consistent with standards of medical practice current at the time that this clinical policy was approved.

The purpose of this clinical policy is to provide a guide to medical necessity, which is a component of the guidelines used to assist in making coverage decisions and administering benefits. It does not constitute a contract or guarantee regarding payment or results. Coverage decisions and the administration of benefits are subject to all terms, conditions, exclusions and limitations of the coverage documents (e.g., evidence of coverage, certificate of coverage, policy, contract of insurance, etc.), as well as to state and federal requirements and applicable LHCC administrative policies and procedures.

This clinical policy is effective as of the date determined by LHCC. The date of posting may not be the effective date of this clinical policy. This clinical policy may be subject to applicable legal and regulatory requirements relating to provider notification. If there is a discrepancy between the effective date of this clinical policy and any applicable legal or regulatory requirement, the requirements of law and regulation shall govern. LHCC retains the right to change, amend or withdraw this clinical policy, and additional clinical policies may be developed and adopted as needed, at any time.

This clinical policy does not constitute medical advice, medical treatment or medical care. It is not intended to dictate to providers how to practice medicine. Providers are expected to exercise professional medical judgment in providing the most appropriate care, and are solely responsible for the medical advice and treatment of members. This clinical policy is not intended to recommend treatment for members. Members should consult with their treating physician in connection with diagnosis and treatment decisions.

Providers referred to in this clinical policy are independent contractors who exercise independent judgment and over whom LHCC has no control or right of control. Providers are not agents or employees of LHCC.

This clinical policy is the property of LHCC. Unauthorized copying, use, and distribution of this clinical policy or any information contained herein are strictly prohibited. Providers, members and their representatives are bound to the terms and conditions expressed herein through the terms of their contracts. Where no such contract exists, providers, members and their representatives agree to be bound by such terms and conditions by providing services to members and/or submitting claims for payment for such services.
